### Loot the Room?

Loot The Room helps GMs run better games, and gives them fun stuff to do it with. In 2017 the site was nominated for an [ENnie Award](#) for Best Blog.

Loot The Room is run by [Chris Bissette](#), a writer from the UK. I'm on Twitter as [@pangalactic](#) and I'm even doing [Facebook](#) now.

Loot The Room's running costs are paid for by the generosity of people like you on [Patreon](#). Should you be inclined to support me, tiers start at \$1 a month and give you advanced access to posts before they go live here, plus a bunch of other cool stuff.

**Advertisers please note:** Loot The Room is 100% ad-free and will always remain that way. Any guest posts are provided by writers who I reach out to personally. I do not accept sponsored articles, banner ads, or paid advertorials of any kind.

Feel free to use any of the resources you find on this site in your games, and please let me know how they work (or don't work).

If you like what I'm doing here and would like to see more, please [check out my DMs Guild titles](#).

You can find me on Twitter [@pangalactic](#) or email me at [chris@loottheroom.uk](mailto:chris@loottheroom.uk).

### Money Stuff

This site costs me money to run. I hate seeing adverts, so I don't put them on the site. Instead the site is funded by my sales on DMs Guild, through affiliate links from Amazon and the DMs Guild, and through my new [Patreon campaign](#). I do not receive money in exchange for promoting specific titles; everything I recommend in the [Best of DMs Guild](#) posts is a product I have paid for (unless otherwise noted in the review), used, and liked enough to recommend to you.
