Welcome to February's DMs Guild roundup! Every month I gather together some of the best new releases from the DMs Guild. You won't find many bestsellers here; the huge amount of new content appearing daily means that lots of great work slips through the cracks. It's my aim to shed some light on those undiscovered gems, and to give you some fun new things to use in your games that you might not otherwise be aware of.

I was involved in a few projects this month that I'd like to draw your attention to before we get into the roundup, and I hope you'll forgive me this moment of shameless self-promotion. My new city supplement [Cities: Shadepoint](#) is currently available from DriveThruRPG under Pay What You Want, and two of my releases (*Breaker of Chains* and *Trinkets Too*) are included in [A Fistful of Coppers](#), a massive collection of 26 DMs Guild bestsellers (which has just become a Copper bestseller itself).

With that out of the way, let's take a look at my pick of the best new releases on the DMs Guild this month. As always, the top of this post is a quick reference; scroll down for the reviews themselves.
