Welcome to March's DMs Guild roundup! Every month I gather together some of the best new releases from the DMs Guild. You won't find many bestsellers here; the huge amount of new content appearing daily means that lots of great work slips through the cracks. It's my aim to shed some light on those undiscovered gems, and to give you some fun new things to use in your games that you might not otherwise be aware of.

There are a couple of releases this month that I want to draw your attention to, though they've done well enough already that I didn't want to bump anything from the main list to make space for these. Think of these as Honourable Mentions, of a sort.

First there's [Monsters Without Borders](#), a Pay What You Want title that serves as a preview for the upcoming *Monsters of the Guild* project that I'm very excited about. This is a selection of some of the best monsters in that larger book, with the added incentive that all the creators involved in this one are donating their royalties to Doctors Without Borders.

Second up is [The Mines of Chult](#) by Jeff C. Stevens, Shawn Merwin, and Tony Petrecca. Jeff essentially invented the Encounters format on the DMs Guild, and he's teamed up with two of the best adventure writers around to present a host of encounters you can drop into any adventure that journeys down into the mines. I received a complimentary copy of this book, but I was happy to pay the \$6.95 asking price after I'd looked through it. It's already a Silver Bestseller, and for good reason.
