I am, of course, by no means the first person to decide to spend my time writing about D&D/RPGs in general, or drawing maps. There are tons of sites out there, and while many of them contain a lot of the same stuff, there are a few that you can't afford to ignore if you want to run better games.

- [Dwarves in a Trenchcoat](#)
- [Deven Rue](#)
- [The Angry GM](#)
- [Roleplaying Tips](#)
- [The Dungeon Dozen](#)
- [Hack & Slash](#)
- [Goblin Punch](#)
- [r/dndbehindthescreen](#)
- [r/UearthedArcana](#)
- [Cartographer's Guild](#)
- [RPG Bloggers Network](#)
- [Kosmic Dungeon](#)
- [D&D Blogs](#)
- [Zardozy Games](#)

If there's anything you think I should be reading, leave a comment and let me know. And drop a link to your own blogs too so I can come and say hi.
